## **AscendTMS™ Doubles Office Space and Triples Hiring**

***The World's Fastest Growing TMS Software Maker Is In Hyper-Growth Mode.***

Brandon, FL – May 27, 2016

InMotion Global, Inc. maker of AscendTMS™, the world's fastest growing transportation management software (TMS) platform, announced today that it has doubled its office space to accommodate further growth.

Tim Higham, president and CEO of InMotion Global stated, "In the last year we have been growing fast. Our customer service team has almost tripled in size and the AscendTMS™ paid subscriber base has grown eight fold. So, it was time we added more space to accommodate additional team members and to give our existing staff more room to work so they provide the same high level of customer service that we are well known for."

AscendTMS™ continues to be the only transportation management system (TMS) offered at no cost for the base system and is the only TMS that can be launched immediately from a website by new users with no contract, no upfront fees, no credit card, and no long-term license agreement. AscendTMS™ continues to be the world's leading cloud based freight brokerage software, trucking software, and shipping software and has won every major industry award over the last 14 years.

Higham continued, "I think AscendTMS™ is so popular because we add any feature that our users can think of, for free, as long as the entire user community benefits. Our users think of some amazing ideas and we implement them quickly. When everyone sees the new features we release every 2 weeks they get excited and spread the word. There is no better sales team than an excited and inspired customer base."

The new AscendTMS™ offices will remain in Brandon, FL. "We expect to double our team again by the end of 2017." Higham said. "Florida is a beautiful place to live. People want to be here and people want to move here. So, hiring top level talent has been relatively easy as we can pull from the existing local population as well as from talent across the country. We will keep investing in our future by further growing our team and our office footprint where needed. So far, building the world's best TMS software and focusing on our users' needs has been very good for business".

**About InMotion Global:** InMotion Global, Inc. provides the free, award-winning, patent-pending Transportation Management System, AscendTMS®, to freight shippers, freight brokers, and trucking companies. AscendTMS® is used by thousands of companies in 19 countries, from small single-person logistics operations to multi-billion dollar international corporations, to manage any logistics operation. AscendTMS® is 100% free to use, requires no upfront fees, no annual license cost, requires no downloads or installations, is mobile certified, and provides enterprise level TMS features to manage and operate any logistics operation. AscendTMS® is the world's leading cloud based freight brokerage software, trucking software, and shipping software, and is currently the world's fastest growing and most widely used TMS solution, adding over 20 new corporate customers per day. InMotion Global, Inc. is headquartered in Brandon, Florida. Learn more at [www.TheFreeTMS.com](http://www.TheFreeTMS.com) or at [www.InMotionGlobal.com](http://www.InMotionGlobal.com).
