## **AscendTMS™ Wins Top 100 Logistics Technology Award.**

### **Patent-pending logistics technology keeps software leader at the forefront of the TMS revolution**

Brandon, FL – April 6, 2016

AscendTMS™ and its patent-pending Transportation Management System (TMS) technology are in the spotlight again. *Inbound Logistics* has named AscendTMS™, which specializes in freight brokerage software, trucking software, and shipping software, as a *Top 100 Logistics IT Provider for 2016*.

Tim Higham, president and CEO of AscendTMS™, said, “No other TMS comes close to matching our value proposition. We offer the most sophisticated logistics technology for the lowest cost in the market. With thousands of daily users, we are constantly told that we are changing the way freight brokerages, trucking companies, and shippers run their logistics and distribution operations. This award further solidifies our market leading position.”

AscendTMS™ continues to be the only Transportation Management System (TMS) offered at no cost for the base system, it’s the only TMS that can be launched immediately from a website by new users, and it’s the only TMS requiring no contract, no upfront fees, and no long-term license agreement. AscendTMS™ continues to be the world’s leading cloud based freight brokerage software, trucking software, and shipping software, and has won every major industry award over the last 14 years.

Every April, *Inbound Logistics* recognizes 100 logistics IT companies that enable logistics excellence. Drawn from a pool of more than 400 companies, using questionnaires, personal interviews, and industry research, *Inbound Logistics* selects the Top 100 technology leaders.

Higham continued, “We are immensely pleased to be recognized by *Inbound Logistics* once again this year. This award is dedicated to our rapidly growing client base, who tell us that we help them every day to become more profitable. That was always our goal and it drives us to innovate further.”

**About AscendTMS®:** AscendTMS®, provides free, award-winning, patent-pending Transportation Management System (TMS) software to freight brokers, trucking companies, and freight shippers. AscendTMS® is used by thousands of companies in 19 countries, from small single-person logistics operations to multi-billion dollar international corporations, to manage all logistics operations. AscendTMS® is 100% free to use, requires no upfront fees, no annual license cost, requires no downloads or installations, is mobile certified, and provides enterprise level TMS features to manage and operate any logistics operation. AscendTMS® is the world’s leading cloud based freight brokerage software, trucking software, and shipping software, and is currently the world’s fastest growing and most widely used TMS solution. AscendTMS® is headquartered in Brandon, Florida. Learn more at [www.TheFreeTMS.com](http://www.TheFreeTMS.com).
