AscendTMS Provides Free IFTA Tax Reporting To Subscribers of Their Premium TMS Software

AscendTMS Is The Only Transportation Management System (TMS) To Offer Zero-Cost IFTA Tax Reporting

Tampa, FL – August 25, 2016

InMotion Global, Inc. announced today that AscendTMS, the world's fastest growing transportation management software (TMS), has added free IFTA tax reporting to its comprehensive feature set. AscendTMS is the only TMS on the market to offer free IFTA tax reporting, included in the premium software subscription.

Tim Higham, president and CEO of InMotion Global, Inc. said, "Carriers can now complete IFTA reporting in less than 2 minutes if they use AscendTMS to manage their trucking business. Today, most carriers take several days compiling the required IFTA paperwork and they use a costly third party filing service. Now, AscendTMS offers them a zero-cost IFTA reporting solution that is fast, accurate, and free."

The AscendTMS IFTA service calculates all carrier miles travelled through each state for the reporting period and calculates the applicable taxes using the latest published IFTA tax rates per state. It allows carriers to manually edit line-haul and deadhead miles per state, provides fuel card integration with EFS, Fleet One, and other national fuel card providers, and it automates the entire IFTA reporting process for carriers.

In addition to the new IFTA reporting features, AscendTMS is the only TMS to offer seamless cash funding on completed loads, offers fully customizable load management screens, free GPS load tracking built into the TMS, free document management, sending of drivers instructions via text from the TMS (and receive replies), complete fleet, asset, and driver management, full brokerage management, easy accounting, full reporting, user role management, branch and agent management, a free truckload rate index, a free driver pay and settlement module, free route and load optimization, free customization, EDI connectivity, and much more.

Higham continued, "AscendTMS is the undisputed leader in TMS value, offering more features for less money than any other TMS in the world. With our new IFTA tax reporting solution we are the

only TMS provider to offer this as an included service. I believe that's the pure definition of value for our customers, who are looking for the best available TMS technology at the absolute lowest cost."

AscendTMS continues to be the only transportation management system (TMS) offered at no cost for the base system, and is the only TMS that can be launched immediately from a website by new users with no contract, no upfront fees, no credit card, and no long-term license agreement. AscendTMS continues to be the world's leading cloud based freight brokerage software, trucking software, and shipping software and has won every major industry award over the last 14 years.

About InMotion Global: InMotion Global, Inc. provides the free, award-winning, patent-pending Transportation Management System, AscendTMS®, to freight shippers, freight brokers, and trucking companies.
