**Truckstop.com And AscendTMS Announce Deeper Integrations, With Access To Real-Time Load Searching, Real-Time Spot Rates, Carrier Onboarding, Driver Verification, And More.**

**Tampa, Florida – July 31<sup>st</sup>, 2018**

InMotion Global, Inc. announced today that AscendTMS, the world's most popular transportation management software (TMS), and Truckstop.com, the industry's most trusted load board and largest freight marketplace, will deepen their existing partnership to offer carriers, brokers and shippers more of Truckstop.com's services through the AscendTMS logistics platform. Truckstop.com is one of the largest load boards and freight matching services in the world.

The extended partnership will provide valuable services to carriers, brokers and shippers through the AscendTMS software. The integration will give carriers the ability to access Truckstop's loads, as posted in real-time by brokers and shippers, via the free Basic subscription of AscendTMS (a valid subscription to Truckstop.com is required). Moreover, brokers and shippers will have the ability to access automated carrier onboarding, freight rates, carrier verification, and other services, deeply integrated into AscendTMS.

The AscendTMS basic subscription will be offered at no cost. The AscendTMS software includes Truckstop.com load posting and load searching connectivity within the AscendTMS free basic subscription level.

Tim Higham, president and CEO of InMotion Global, Inc. said, "Since our first integration with Truckstop.com several years ago, it was clear that they were driven to help their customers become more profitable and more successful. Truckstop.com is the center of the universe for hundreds of thousands of carriers, brokers, and shippers because they provide accessible solutions with real value. This is the exact same ethos that has allowed AscendTMS to rise to the top, by providing industry leading TMS software at the absolute lowest cost."

Paris Cole, Truckstop.com CEO, stated, "Truckstop.com and Ascend TMS are working together to make the lives of our customers easier. With this integration, workflows are more efficient and businesses will be more profitable. We are grateful to work with partners like AscendTMS to move the freight community forward with innovative technology solutions."

Higham said, “Between ITS Dispatch and AscendTMS, carriers, brokers and shippers will find they have access to TMS software to run any sized business, whether that’s 1 load per week or 1,000 loads per week. We’ll collectively help prospects decide between ITS Dispatch and AscendTMS, and we’ll make sure that they have the best TMS software for their specific needs.”

Cole continued, “We are in an era of unprecedented cooperation, centered solely on our customer being more successful. When the customer is successful, Truckstop.com and AscendTMS are also successful. The profitability and growth of our customers always comes first.”

AscendTMS provides carriers, brokers, and shippers with a complete business management solution for their entire logistics operations. It provides easy to use features such as full dispatch control, Truckstop.com load searching and posting, full asset management, driver management, driver pay and settlement, safety and maintenance alerting, a CRM with an included 26,000 strong shipper directory, full sales & commission management, shipper and broker credit reports, full accounting, real-time QuickBooks integration, terminal and agent management, document management, reporting, 180+ ELD integrations, driver texting, a free truckload rate index, IFTA tax reporting, drop trailer support, split load management, Comdata and EFS fuel card imports, cargo claims handling, easy EDI for connection to large shippers, and much more.

**About InMotion Global:**

InMotion Global, Inc. provides the free, award-winning, patent-pending Transportation Management System, AscendTMS®, to freight shippers, freight brokers, and trucking companies. AscendTMS® is used by thousands of companies in 19 countries, from small single-person logistics operations to multi-billion dollar international corporations, and can manage any logistics operation.
