AscendTMS Includes Powerful Truck Mileage and Truck Routing Tools From PTV Group As Part Of Core AscendTMS Offering

Tampa, Florida – March 19, 2019

InMotion Global, Inc. announced today that AscendTMS, the world’s most popular and number one rated transportation management software (TMS), has included true commercial truck mileage calculations, truck routing, and additional commercial truck mileage, routing and optimization tools to their core AscendTMS software, all at zero cost to AscendTMS users.

The combination of PTV Group, a Porsche owned company, and AscendTMS provides carriers, brokers, 3PL’s, and shippers with the most accurate mileage and routing available, without the need for expensive third-party mileage software. It’s available at no cost to all AscendTMS users.

PTV Group is the world leader in commercial truck mileage, routing and optimization tools, with over 800 team members across the globe.

Tim Higham, president and CEO of InMotion Global, Inc. said, “Every logistics professional needs true truck mileage and truck routing. Today, most people pay huge amounts for third-party software or services to get it. AscendTMS is now changing the game - and we are giving it to all AscendTMS users at no cost, so they get true truck mileage and truck routes from us, 24-hours per day, from anywhere they have an Internet connection.”

Chris Wickman, Business Development Executive at PTV Group America, stated; “It’s a privilege to have been chosen to partner with AscendTMS, a global software leader in the logistics industry. The first phase of the integration has been a great success and we’re looking forward to supporting AscendTMS through the rest of the rollout. We believe our accurate mileage calculations and optimization will give AscendTMS a huge competitive advantage in a crowded software environment, and we’ll do all we can to support them.”

AscendTMS is the world’s number one rated TMS software platform. It’s also the only true-cloud based TMS system, requiring no IT staff, no downloads, no setup, no configuration, no installation, no hardware, and no contracts. It offers complete dispatch control, fully customizable load management screens, free load tracking built into the TMS, free document management, sending of driver instructions via text from the TMS (and the ability to receive texted replies into the TMS), complete

fleet, asset, and driver management, full brokerage management, easy accounting, seamless cash funding on completed loads, full reporting, user role management, branch and agent management, a free truckload rate index, real truck-miles and routes, automated driver pay and settlement, free route and load optimization, free customization, one-dollar EDI connectivity, a driver payment portal, and much more.

About InMotion Global:

InMotion Global, Inc. provides the free, award-winning, patent-pending Transportation Management System, AscendTMS®, to freight shippers, freight brokers, and trucking companies. AscendTMS® is used by thousands of companies in 19 countries, from small single-person logistics operations to multi-billion-dollar international corporations and can manage any logistics operation. AscendTMS® is 100% free to use for the Basic system, requires no upfront fees, no annual license cost, requires no downloads or installations, is mobile certified, and provides full enterprise level TMS features to manage and operate any logistics operation. AscendTMS® is the world’s leading cloud-based freight brokerage software, trucking software, and shipping software, and ranked as the number one TMS software by Crowd Reviews, Capterra, and Software Advice (a Gartner company). AscendTMS® is the world’s fastest growing and most widely used TMS solution. InMotion Global, Inc. is headquartered in Brandon, Florida. About PTV Group

PTV Group takes a holistic approach that integrates all aspects of traffic, transport and logistics to create and promote sustainable mobility. Recognized as global market leader, PTV develops intelligent software solutions for transport logistics, traffic planning and traffic management. Based on its unique expertise in every facet of mobility, PTV ensures that people and goods arrive at their destinations safe and sound, and on time. Trips and routes for over one million vehicles are planned with our software. The European transport model, which encompasses all passenger transport and freight movements in Europe, is developed using PTV software. We currently have more than 800 colleagues worldwide committed to driving the high performance of our products. PTV’s headquarters, located in the heart of the Karlsruhe technology region, house the company’s center of development and innovation. From here, PTV plans and optimizes everything that moves people and goods worldwide – it’s the central idea which has accompanied the Group since its foundation in 1979.
