AscendTMS Partners with Total Quality Logistics

Tampa, FL, November 24, 2021 – InMotion Global, Inc., maker of AscendTMS, the world’s #1 rated and most popular TMS software, and Total Quality Logistics (“TQL”), one of the largest freight brokerage and third-party logistics firms in North America, today announced the launch of TQL on the AscendTMS platform.

Through the partnership, AscendTMS will be offered to TQL carriers at no charge. The platform allows them to access a digital ecosystem in real-time, based on their truck’s location and destination, without using external load boards.

“Carriers want to keep their drivers constantly moving by getting perfectly-matched loads,” said Tim Higham, President and CEO of AscendTMS. “Carriers using AscendTMS will love this real-time integration with TQL because AscendTMS is saying to them *‘here’s a perfectly matched live load for your driver when they empty the current load they’re on’*. It’s fast, and efficient.”
